HECTARES OF VINEYARD 23

After his successes on Etna, the late Andrea Franchetti demonstrated his ambitions and ability to aim for the top with this estate in Val d'Orcia, where no one had planted vineyards, with such a high density. Extremely demanding level of work with harvests involving 10, 15 or even 20 passages in the vineyard to have the perfect fruit for vinification. Since his passing away in December 2021, the winery has been in the hands of his son Jonathan.
